ABOUT TYLAR

Tylar Phorever is a published author, keynote speaker, epilepsy advocate, and entrepreneur — founder of **ITS DIVINE WRITING**, a multi-genre literary and creative services business that uses storytelling and speaking to educate, empower, raise awareness, foster healing, and encourage personal and professional development.

Living with epilepsy shaped both her message and her messenger. Through keynote speaking, advocacy, and creative services, Tylar explores epilepsy and disability awareness, disability inclusion, DEI, overcoming adversity, resilience, self-advocacy, healing, identity, growth, and life beyond limitations — helping individuals and communities find their voice, embrace their stories, and recognize new possibilities for their future.
